"We had never participated in an MoneyShow Masters Symposium table-top event with the MoneyShow and were not sure how successful we would be in that type of format. We were absolutely blown away by the high caliber (financial net worth) of the attendees and their enthusiasm toward our money management services. We were able to meet with billion-dollar firms who are putting our methodologies to work for their clients, along with very large family offices; some of which are over 100 years old. In all our many years of exhibiting with various MoneyShow events, the MMS event is, without question, the single most productive event we have ever attended. And... let me add that my break-out session was standing-room only! The in-person "MMS" events are now a permanent part of our annual marketing budget. Thank you, Kim!!"

"I've been coming to MoneyShows since back in the 1980s. And I learned a lot. Met a lot of people and a lot of the exhibitors and sponsors over the years. Some of them even know me. ...so if I've been coming to them since 1980 and I'm still coming to multiple shows a year, they must be doing something right!"
